

SAMEERA MADUSANKA

Singapore · (+65) 8764 5229

sameera234madusanka@gmail.com · www.linkedin.com/in/sameera-madusanka

Accomplished Senior Software Engineer with 7+ years of experience in **ASP.NET**, **.Net Core**, **C#**, **Angular** and **SQL** development. Demonstrated success in full-stack projects, leveraging **Agile** methodologies to deliver scalable and high-performance software solutions. Adept at fostering collaboration across teams to meet project requirements, I am passionate about driving innovation and enhancing user experiences through emerging technologies. Eager to contribute to organization's tech challenges and collaborative environment.

EXPERIENCE

JUNE 2025 – PRESENT

SENIOR SOFTWARE ENGINEER, NATIONAL LIBRARY BOARD(NLB) - SINGAPORE

- Manage and prioritize service and change requests from the operations team to ensure timely and effective resolution
- Maintain and optimize the existing library management system, ensuring high availability and performance.
- Collaborate with cross-functional teams using **AWS**, **Splunk**, **Leap**, **SharePoint**, **SQL Server**, and **C# .NET** technologies to deliver robust solutions.

APRIL 2023 – JUNE 2025

SENIOR SOFTWARE ENGINEER, QUESSCORP PTD LTD - SINGAPORE

- Collaborated effectively within an **event-driven micro-services** architecture and **RESTful** services, fostering strong partnerships with other domain teams to deliver integrated solutions.
- Designed and executed **xUnit** test cases to cover critical functionality and edge cases, achieving 100% code coverage and identifying potential issues early in development cycle.
- Executed comprehensive testing in various environments (**dev**, **sit**, **uat**, **ort**) to validate deployments, including functional, regression and performance tests, ensuring application stability and performance.
- Utilizing advanced **C#** features, including **async/await** and **multi-threading**. for asynchronous programming, **LINQ** for efficient data querying, and **dependency injection** for modular and maintainable code architecture to build robust and scalable application.
- Developed **Apache Kafka** based messaging infrastructure to manage high-thru put data streams from scheduled batch jobs, handling millions of messages per day with minimal latency.
- Utilized **Azure DevOps (Boards, Wiki, Repos, Pipelines, Test Plans)** tools to ensure accurate, up-to-date project information, enhancing team accessibility and collaboration.
- Identified and resolved application issues, **service requests**, and **change requests** promptly-typically within SLA periods-ensuring minimal downtime and maintaining optimal performance.

JUNE 2022 – MARCH 2023

SOFTWARE ENGINEER, BLACKSWAN TECHNOLOGIES - SRI LANKA

- Demonstrated ability to analyze and resolve complex technical issues in a timely and efficient manner, resulting in improved product performance and customer satisfaction.
- Demonstrated expertise in **Amazon Web Services (AWS)** by designing, deploying, and managing scalable cloud infrastructure using **AWS Simple Storage Service (S3 bucket)**, **AWS Lambda functions**, and **CloudWatch**, ensuring optimal performance and security.
- Strong proficiency in **Angular 9** and later versions, including building and maintaining complex applications using **micro frontends**, implementing features such as **routing**, **lazy loading**, and **custom components**, and staying up to date with the latest Angular versions and best practices.
- Used code coverage tools such as **SonarQube** to measure test coverage and identify areas for improvement and refactored the code using Angular best practices.

JANUARY 2021 – MAY 2022

SOFTWARE ENGINEER, CESOVA PVT LTD - SRI LANKA

- Experienced in full-stack web development, with a focus on frontend development, and proficient in using frontend tools and frameworks such as **Angular 9+**, **Bootstrap**, **Angular Extensions**, **NgRx** and **Angular CLI**.
- Collaborated with UI/UX designers to create user-friendly interfaces according to **Zeplin**, **Figma** and **Storybook**.
- Contributed to product development by proposing new features and improvements based on research, mainly used **Angular 9** and **NgRx** features.
- Participated in code reviews and deployments to different environments using **CodeCommit**, **Jenkins** and **Azure pipelines**.

APRIL 2019 – DECEMBER 2020

SOFTWARE ENGINEER, OSTRIO CEYLON PVT LTD - SRI LANKA

- Successfully managed version control and deployment processes by utilizing **GIT**, **SVN**, **IIS** and **RPC**, ensuring efficient and timely implementation of changes while maintaining the integrity and stability of the system.
- Successfully migrated legacy codebase to a new **Angular** project, reducing technical debt and improving code quality.
- Developed and maintained a library of reusable components using **Angular**.
- Developed and maintained a comprehensive suite of unit tests using **Jasmine** and **Karma** for an Angular application, ensuring coverage of all critical functionality and edge cases.

FEBRUARY 2018 – MARCH 2019

TRAINEE SOFTWARE ENGINEER, SCIENCE LAND IT PVT LTD - SRI LANKA

- Developed and maintained SQL **stored procedures** and **triggers** to automate routine tasks and ensure data integrity. Additionally, created and optimized complex SQL queries-including **joins**, **subqueries**, and **views**-to support business requirements and reporting. Managed scheduled SQL jobs for task automation and implemented advanced SQL logic to streamline data processing and enforce business rules
- Maintained and updated web applications using **ASP.NET** and **C#**, ensuring functionality and security in response to changing business needs.

EDUCATION

NOVEMBER 2018

B. SC. (HONS) IN COMPUTER SCIENCE AND SOFTWARE ENGINEERING

UNIVERSITY OF BEDFORDSHIRE – UK

PROJECTS

IRIN3, INLAND REVENUE AUTHORITY OF SINGAPORE (IRAS)

- This project is a GovFinTech project which transformed a legacy on-premises monolithic application (IRIN2) into Azure GCC based microservices and micro frontend-based event driven application (IRIN3).
- As a Senior Full stack Developer for a one of the core **Property Tax Modules**, worked on implementing required business modules and features with the tools **Angular 13/16, Typescript, JavaScript, NgRx, RxJS, Jasmine, Karma, C#, .NET 6, EF Core, Apache Kafka, xUnit, Fluent Validator, HTML 5, SCSS** in **Agile Development** Model.

ELEMENT & ELEMENTRY, BLACKSWAN TECHNOLOGIES

- These 2 products enable organizations to build enterprise **AI applications** at scale for any domain quickly and at a fraction of the cost. It is equally adept at integrating structured corporate data as unstructured or open-source data.

MIS, WESTERN PROVINCIAL COUNCIL OF SRI LANKA

- This software system facilitates to manage all data collected during routine programs implementation and monitoring ensuring the integrity of data and communications.

TECHNICAL SKILLS

- | | | | |
|-------------|----------------|-----------------|--------------|
| • ASP.Net | • Azure | • Angular | • Typescript |
| • .Net 6-8 | • Apache Kafka | • VS Code | • GCC |
| • C# | • Docker | • Visual Studio | • Jenkins |
| • xUnit | • SQL | • AGILE/SCRUM | • GIT/SVN |
| • Terraform | • Kubernetes | • AWS | • Splunk |

PERSONAL SKILLS

- | | |
|-----------------------------------|------------------------|
| • Logical and Analytical thinking | • Attention to detail. |
| • Communication. | • Collaboration. |
| • Adaptability. | • Problem Solving. |
| • Time management. | • Leadership. |
| • Reliable and Responsible. | • Teamwork. |

LANGUAGES

- English – Proficient/Fluent
